# HERITAGE PARK SITE PLANNING

## COMMUNITY SURVEY: Follow-Up on the Design

The City of Andalusia and Concordia LLC hosted the second Andalusia Community Engagement Meeting at the Adult Activity Center on Tuesday, October 19th, 2021.

Nearly 200 community members refined their vision for the future and shared their preferences for the development of **Heritage Park**.

Residents were asked to analyze a map with proposed boundaries for **Heritage Park** and rank five program precedents that could activate the site for a broad range of uses.

Based on this input, we were able to draft a new park concept plan found below.

To allow for additional community input on the design of Heritage Park, we have prepared a brief survey. We encourage both meeting attendees as well as those who were unable to attend to provide their feedback about style preferences, program priorities and overall suggestions.

We will compile survey responses and share the results in a summary document distributed through the City website.

### DIRECTIONS:

Please review the concept design below and then kindly answer the survey questions.

The survey should approximately take **15 minutes**.
